

GENTAS SQUARE TABLE TOPS

ABOUT

These table tops are manufactured in Turkey by Gentas, using the renowned resin moulding process. Available in a select range of sizes and finishes, these tops are durable, weatherproof, inexpensive and attractive.

The foundation of each Gentas table top is a mix of quality hardwoods and softwoods, kiln-dried and blended with synthetic resins as well as anti-rot and anti-moisture agents. This mixture is compressed at 140°C under high pressure before the hardwearing and decorative layers are applied and inseparably moulded together.

This method produces high quality table tops which are seamless, hygienic, functional and suitable for indoor or outdoor use.

It is advisable to select light finishes (White, Stratos, Marble and Travertine) for use in direct sunlight conditions. Dark colours used in direct sunlight can heat up and become hot. The core material can expand and result in warping at the edges. The manufacturer does not accept this as a warranty claim.
