MAX LEGS SMALL

ABOUT THE MAX LEGS SMALL

The Max Leg represent the zenith of contemporary design, blending functionality with avant-garde aesthetics. Constructed using polypropylene fortified with glass fibre, these legs are the product of advanced air moulding thermoplastic injection techniques, reflecting the strides of modern manufacturing. The unique combination of materials not only ensures durability but also offers a sleek, sophisticated appearance that is versatile enough for both indoor and outdoor settings.

The Max Leg is supplied unassembled for ease of transport, and is simple to assemble.
